This is an office action for serial number 10/619,209  
entitled Utility Line Hanger apparatus, filed on July 14, 2003.

***Election of Species***

This application contains claims directed to the following  
patentably distinct species of the claimed invention:

Species I drawn to figures 1-7 and 14

Species II drawn to figure 8 and 14

Species III drawn to figures 9-11, 14

Species IV drawn to figures 12-14

Species V drawn to figure 15.

Applicant is required under 35 U.S.C. 121 to elect a single  
disclosed species for prosecution on the merits to which the  
claims shall be restricted if no generic claim is finally held  
to be allowable. Currently, claims 1-4, 6-8, 13, 15, 17-19, and  
21-25 are generic.

Applicant is advised that a reply to this requirement must  
include an identification of the species that is elected  
consonant with this requirement, and a listing of all claims  
readable thereon, including any claims subsequently added. An  
argument that a claim is allowable or that all claims are  
generic is considered nonresponsive unless accompanied by an  
election.

Art Unit: 3632

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to John S. Reid on September 15, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3632
